SPORTS ACADEMY

DMESPORTSACADEMY.COM

MISSION STATEMENT

Our mission is to inspire our student-athletes to pursue excellence in every aspect of life. We seek to inspire our student-athletes to love learning, to face life's challenges with courage and character, and to cultivate effective communication skills to motivate and inspire student-athletes in the pursuit of excellence in their spheres of influence.

Critical to the student-athlete is the development of the five pillars of DME Sports Academy:

- **Heart:** Student demonstrates academic and athletic achievement, exemplary conduct and positive attitude
- **Excellence:** Student demonstrates a life that fulfills the principles of DME Sports Academy and demonstrates outstanding academic and athletic achievement
- **Character:** Demonstrates Diligence, Patience, Faithfulness, Honesty, Loving-Kindness, Respectfulness, Thankfulness
- **Discipline:** Student is on the Honor Roll (3.5 GPA) and leads the team in dedication on the court/field
- **Servanthood:** Student completes volunteer hours and projects independent of school, looks to ways he/she can help others

Statistically speaking, the majority of business leaders and entrepreneurs are former athletes. DME Sports Academy believes these five pillars are pivotal to leadership and building excellent sports teams which are competitive and out-perform others. DME Sports Academy's graduates will be exceptional with a drive to passionately tackle whatever obstacle lies before them.

Lynette Bowman | Chief Academic Administrator

As a lifelong educator, Bowman has inspired students to achieve more than they thought possible, not just in the classroom but inspiring greater character and leadership in their lives outside of the classroom. Prior to joining the team at DME, Bowman taught for 10 years at a local private school. Throughout her teaching tenure, she utilized critical thinking and interdisciplinary learning styles to meet the needs of individual student's learning styles. She taught a variety of middle and high school subjects including Latin IV-VI, Rhetoric I & II, Mock Trial, Senior Thesis, and Biblical Womanhood at Riverbend Academy. As a school administrator, she assisted the Dean of Academics, Dean of Students, and Head Master. Results oriented and visionary, her organizational ability and keen communication skills allowed her to present winsomely to change policy, course offerings, and looping to meet the changing requirements of educational demands for the students and families. She was poised to accept the Dean of Academics position when DME Sports Academy approached her to start their 6th-12th grade school. Since starting the school, Bowman's role has expanded to include supervising all academic programs at DME. When she's not working, she enjoys spending time with her family watching or attending an overwhelming amount of basketball.

Nicole Bice | Academic Coordinator

Bice joins our team of educators at DME Sports Academy with many educational talents. Her repertoire of teaching is diverse, which allows her the ability to reach many different students and their unique learning styles. Her ultimate goal is to find the best learning method to help each student grow as a scholar and person. Bice has experience in both private and public schools and is the former Director for Huntington Learning Center. Bice draws on her experience as an athlete to relate what is needed to develop the professional student-athlete and DME Sports Academy. When she's away from work, you will find her on the soccer field or enjoying the ocean.

Devin Hill | Guidance Counselor and NCAA Compliance Coach | High School Regional Team

Hill joins the DME Sports Academy academic and coaching staff filling the role of Guidance Counselor and NCAA Compliance while coaching our HS Regional team. Hill most recently finished his second season as the lead assistant coach with the women's basketball team at

Queens College in Queens, NY. He has also coached at the high school and AAU levels in New York. He recently relocated to Florida to continue coaching and plant roots. He is looking forward to mentoring and working with all of our student-athletes helping them get to the next level. Hill was a four-year player at DePaul University and held a record in the top 10 for blocked shots when he graduated.

Sean Henry | Director of Student Life

After spending ten years in Washington D.C. trying his hand in the game of politics, Sean decided to move down to Port Orange, FL to enjoy a slower pace of life with his new family. Sports have always been a big part of his life and he appreciates all that sports have done for him. He wants to pass that along to his son and future generations.

He has been on the Volusia Youth Hockey board, the Port Orange Panthers Baseball board and has coached basketball, soccer, flag football. Sean believes that all kids should experience life outside of their normal routine to expand their horizons and see that there are different paths to take in life to reach your goals.

WHO WE ARE

DME Sports Academy is one of the top athletic training facilities in the world. Located in sunny Daytona Beach, Florida, the Academy employs a holistic approach to education and sports training for student-athletes who are looking to develop their mind, body, and skills. As an organization that focuses on developing the individual at every level, DME Sports Academy provides a tailored platform for each student-athlete. We specialize in basketball, volleyball, and soccer. We offer a wide variety of programs, including seasonal camps and clinics, to athletes who are looking to grow. Each student-athlete receive instruction and developmental training that is geared towards helping him or her reach their full potential on and off the court or field. We believe that is the future of secondary education and DME is on the cutting edge.

Combining state of the art facilities with experienced and proven academic educators, DME Sports Academy is the future of education happening now. Looking to expound upon player development, DME Sports Academy has expanded into the academic arena to inspire the pursuit of excellence in academics. From middle school and high school to post-grad programs, DME Sports Academy invests in the person, student, and athlete by creating customized academic plans to suit the needs for each child/young adult looking to compete at the next level.

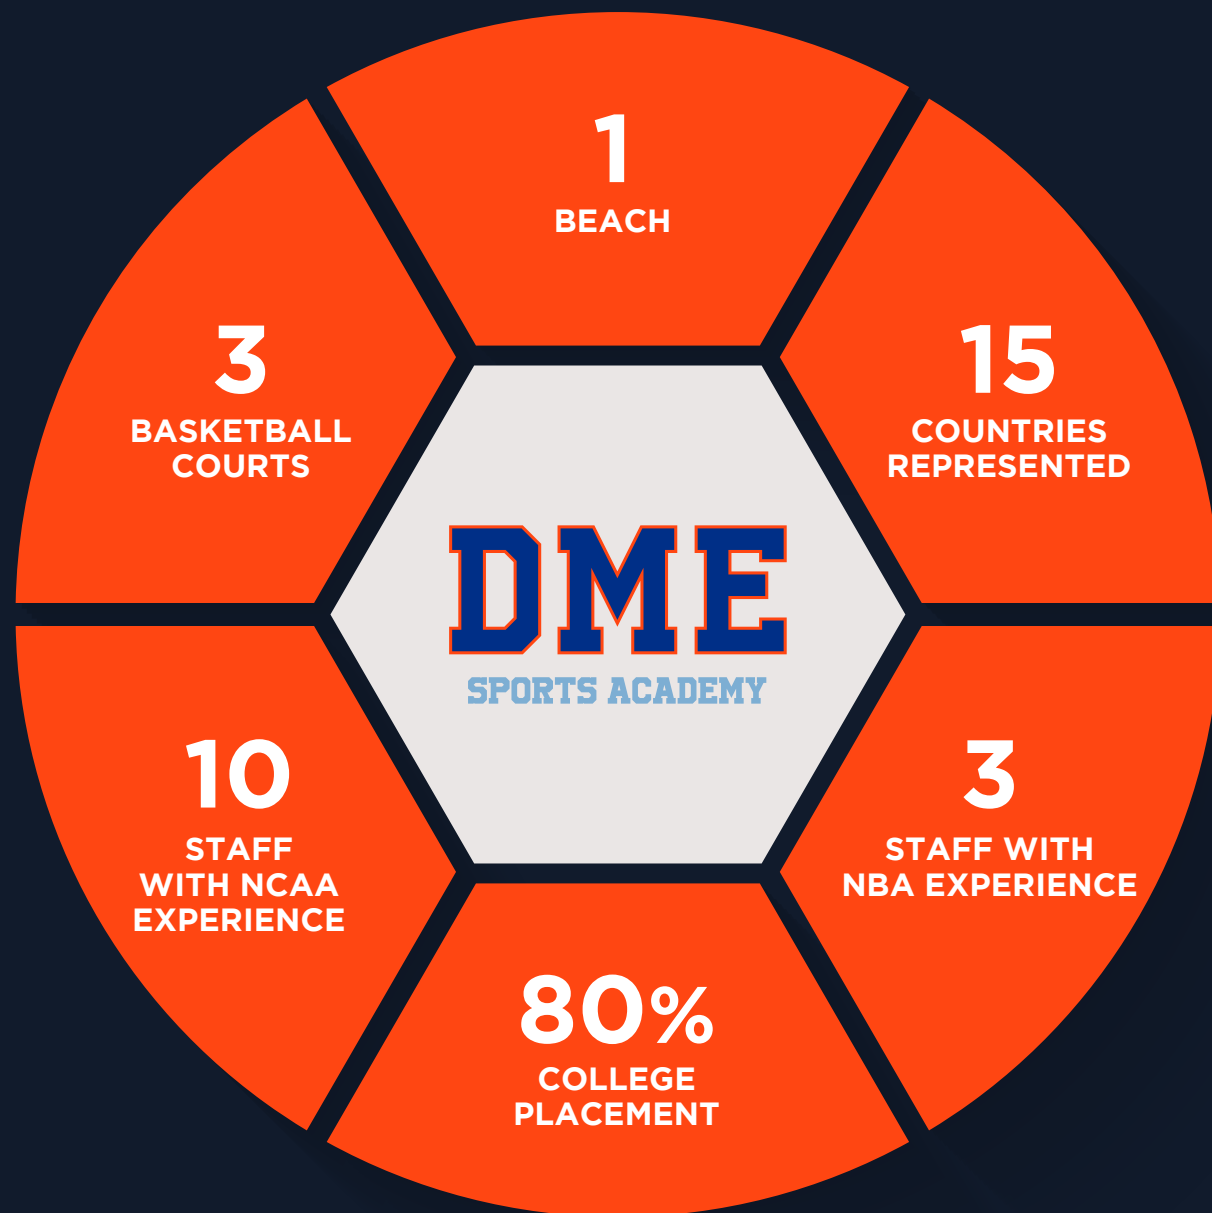

Where other academies talk diversity, we live it. Our staff and student populations are truly a melting pot of over fifteen countries spread all over the world. Further, our athletic offerings allow athletes to mix with each other to learn and appreciate the unique and special nuances of each other's sports and cultures. Our students benefit from the many cultures and interactions with each other and the staff learning skills that will benefit them long after athletics.

Additionally, the Academy runs an in-house, video production studio as well as a TV broadcasting center aimed to offer student-athletes maximum exposure. Apart from producing cinematic videos for students and players, the studio also utilizes state of the art photography equipment to record games, practices, and events. All home games are live-streamed and as well as a portion of away games, when conditions allow.

Since DME Sports Academy is a family run organization, we meet each athlete's needs in an friendly and supportive setting. The athlete and student realize their potential at DME Sports Academy through our superior facilities, equipment, training system and staff who are committed to each athlete or student who joins our family.

FACTS & FIGURES

Founders Mike and Dan Panaggio founded the DME Sports Academy Foundation, a 501c3, to help fund our student scholarships. All of the student-athletes are on scholarship. Brown & Brown, one of our first donors, made a tax-deductible gift to the school and presented it to the students at the school during it's inaugural year.

One of the five pillars for our student-athletes is Servanthood. As one of our first community outreach days, the students were able to assist the Halifax Humane Society in Daytona Beach with the grand opening of their Grooming Center. Students were on hand to help with set-up, direct traffic, greet guests, clean-up, and walk dogs!

HS & PG ACADEMICS

DME SPORTS ACADEMY

DME SA offers flexibility to allow for excellence in both sports and education. By utilizing online education with Florida Virtual School, our students complete their coursework from anywhere in the world, so their academics are not hindered by their athletic pursuits and traveling. Our students complete their academics on campus each day. In addition to honors and AP level courses, our FLVS teachers are certified by the Florida Department of Education. We use only NCAA approved coursework to ensure all our athletes have the opportunity to qualify for Ivy League and Division 1-3 universities and colleges.

TEST PREP

In order to optimize student scores on the NCAA sliding scale with GPAs, we offer Test Prep to improve ACT and SAT scores for the high school juniors through post grad aged athletes in our program. Test Prep is offered in partnership with Ace It Test Prep services. Ace It Test Prep has proven results with students throughout Florida.

TUTORING & GRADE REPLACEMENT

There are occasions where our students need additional academic support outside of the classroom. Furthermore, some of our students need support learning English to be successful in their American classes. For an additional fee, DME can contract tutors to assist student-athletes in their academic area of need.

NCAA allows Post-Grad students to replace one of their core subject classes. Utilizing Ignatia online, our Post-Grad students can retake and replace one of their high school courses to improve their GPA on the NCAA sliding scale, allowing them to qualify for a higher-level university.

COLLEGE PREP

The DME SA academic team helps guide the students through the process of determining areas of interest, potential majors, and career matching. From there, DME SA assists with college selection, application completion, and financial planning. This helps guide each student-athlete towards recruiting opportunities.

USA STUDENTS

For the domestic 6th-12th student, DME Sports Academy offers customized education plans for each student. FLVS has over 135 courses targeting traditional, Honors, and Advance Placement. Furthermore, as a virtual lab, the students complete collaborative assignments with their schoolmates. Accessible anywhere in the world, FLVS allows students to never miss class from traveling to pursue their athletics. State certified FLVS teachers are accessible 8 AM - 8 PM Monday - Friday by email, phone, or text to allow students to ask any question they might have. Furthermore, DME SA's Academic Coordinator, along with coaches and teaching support staff, guide and supervise the students during the school day.

The Post Grad academic program is for high school graduates who need to replace one of their core grades to improve their GPA or improve their ACT/SAT scores to become eligible on NCAA's sliding scale for colleges and universities. For grade replacement, students utilize the Ignatia online program offered through WCA each afternoon. Students can also attend college prep and test prep classes offered at DME SA.

INTERNATIONAL STUDENTS

International students in grades 6-12 can attend Warner Christian Academy through their I-20 program. WCA is a fully accredited school within 15 minutes of DME SA. International students can train at the DME SA facility with DME SA coaches most mornings and afternoons while attending classes during the day.

For international students who have graduated high school, they can take advantage of NCAA's grade replacement policy to improve their GPAs with the Ignatia online program at WCA. Students can also attend college prep and test prep classes offered at DME SA.

SPORTS PERFORMANCE

Our Sports Performance Coach, Rashad Roberts, has had a very decorated career over the last decade. His most prestigious stop came with the NFL's Carolina Panthers for two years as the Strength Coach Assistant where he worked with the likes of 2015 NFL MVP overall pick Cam Newton and 2013 NFL Defensive POY Luke Kuechly. Coach Rashad has trained a variety of athletes whose skill sets encompass a broad range from beginner to professional. Whether you're training in an individual or team setting, Coach Rashad's attention will focus on the physical and physiological development of the body to achieve your full potential. Training will include strategies for injury prevention, and understanding the proper mechanics in strength and speed training for an athletes' respective sport.

SPORTS MEDICINE

Sports Medicine an integral part of competitive sports. Angie Lawrence, the Director of Sports Medicine and Human Performance at DME Sports Academy plays a significant role in the success of athletes at all levels, by optimizing their physiological and mental well-being. Her vast experience in competitive sports, including high school, collegiate and professional athletes have helped her understand what it takes to make it at an elite level and what it takes to achieve optimal physical, mental and emotional training for athletes. Her passion for peak performance and injury prevention is exhibited daily in her interaction with her athletes as she and her team provide advanced and specialized treatment for each individual need.

RECOVERY

The Department of Sports Medicine and Human Performance provides athletes with the tools and resources to excel in their respective sports while enhancing their overall health and wellness. This Sports Medicine and Human Performance system utilizes an integrated, multi-faceted approach to target all areas of the athlete's performance. We offer the latest in sports recovery with the Normatec compression therapy system as well as HydroMassage beds and cold-water hydrotherapy.

With all these components in hand, The DME Sports Medicine and Human Performance department offers a branch of medicine that has become an integral part of competitive sports. Elite athletes wishing to take their performance to the next level can expect state of the technology and treatment when it comes to physical fitness and prevention of injuries.
